**PROSPECTUS**

***“Education is a companion which no future can depress, no crime can destroy, no enemy can alienate and no nepotism can enslave.”***

The Universal Knowledge School offers a high quality English medium education to the students of Satara, based on C.B.S.E., Delhi curriculum. The School operates on the principles of 'Day Boarding' from Nursery to Std. X The Pre-Primary Section operates in a building at Visawa Naka and the Primary & Secondary Section operates in nine acres modern and spacious premises at village Varye, about 15 minutes from the city.

#### Mission Statement

The school embraces international diversity and strives to provide an academically challenging environment in order to foster intellectual curiosity and a sense of responsibility in our students. To fully educate a person we are committed in cultivating lifelong learners and balanced service – oriented citizens, who will be, prepared to contribute positively in a globally competitive world

## ▪ Infrastructure Facilities

The new school is located in a 9 acre campus at Varye around 8 km from Satara. It is having access from the service road of the proposed six lane NH-4 (new Pune-Bangalore highway) A new school building having modern ambience and infrastructure, the construction of two wings of the new building has been completed and classes are being conducted there, and the third wing is nearing completion with plenty of open space for playground, gardens, outdoor and indoor play areas and vehicle parking. The building is being constructed in phases. The campus has plenty of natural water sources and green surrounding.

- School building is designed by a reputed and experienced Architectural firm specializing in School Architecture. This would ensure scientifically designed space giving maximum learning. Structures are designed by Shri Abhay Gujar, a renowned structural Consultant of Satara, ensuring solid and earthquake resistant structures. The building design follows National Building Code standards, related to seismic zone, climatic compatibility etc.

Classroom sizes are 440 sq.ft each, with design emphasis on natural lighting and ventilation. Each class is being powered by Educomp smart class (Digital Board). All the activities of the School are conducted in separate independent rooms ensuring change of venue and interest. Some subjects are taught outdoors. The classes at secondary level have individual benches for every student.

- Green landscape with plenty of open space. Wide passages for safe mass movement of children.
- Special furniture for KG Grades. Teaching tools and toys of international standards.
- Latest audio-visual Aids, scientifically designed class-rooms, like Educomp.
- Residence facility for selected staff.

Primary and Secondary Grade students have Separate Dining Room where they can have mid-day meals and snacks under consultation of a professional Nutritionist. Monthly menu is prepared and displayed on the notice board. Pre-Primary students are provided only snacks. The Children Learn “Table Manners” and other etiquettes in the Dining Hall.

- Special Computer, Mathematics and Science Labs.
- Play ground for “Soccer” of the size 100 meters x 58.5 meters (as per international standard) is ready to play.

Safe and reliable Bus Service has been arranged for the commutation of the children.

## Academic Facilities

The school has qualified, motivated and experienced teachers. More such staff would be added with additional skills and qualification as per CBSE norms.
